

LIQUID MOON™

CONVENTIONAL GREEN

Liquid Moon Conventional Green Antifreeze provides superior protection against freeze up & boil over. Compatible with aluminum & other metals. Its Low Silicate, advanced formulation is designed for use in passenger car engines and light duty diesel engines. It is a unique combination of corrosion inhibitors utilizing a low silicate, phosphate free formula that is compatible with aluminum and other engine metals.

Liquid Moon Conventional Green Antifreeze is blended with proprietary additives designed to safely meet the performance specifications of (but not limited to):

- ASTM D-3306 •Ford ESE-M97B44-D •Chrysler MS 7170 •SAE J1034 •CEMS B-1
- GM 1825M & 1899M •TMC RP 302A •John Deere 8650 •JIS K 2234 •GSA A-A-870A

50/50 - 6/1 GAL - 172301C061 CONCENTRATE - 6/1 GAL - 1723015061

HEAVY DUTY ELC RED

Liquid Moon Heavy Duty ELC RED Antifreeze offers superior performance in virtually every light and heavy duty application. It's extended life HOAT chemistry is formulated for use in any diesel powered truck, farm, off-road or gasoline engine with aluminum or other metals. The proprietary inhibitor package is formulated to meet CAT EC-1 & ASTM D-6210 specifications and provide heavy duty extended life for 3 years/300,000 miles.

Liquid Moon Heavy Duty ELC Antifreeze is blended with proprietary additives designed to safely meet the performance specifications of (but not limited to):

- ASTM D-3306 •Ford ESE-M97B44-D •Chrysler MS 7170 •SAE J1034 •CEMS B-1
- GM 1825M & 1899M •TMC RP 302A •Cummins Engine •JIS K 2234 •GSA A-A-870A
- ASTM D-6210 •International •Mercedes •Detroit Diesel •Volvo •Freightliner

50/50 - 6/1 GAL - 172303C061 CONCENTRATE - 6/1 GAL - 1723035061

ALL MAKES ALL MODELS

Liquid Moon All Makes All Models Antifreeze offers superior extended life performance in virtually every light duty automobile and light duty diesel application. The proprietary inhibitor package is based on Hybrid OAT technologies. It is a low silicate and phosphate and 2-H free formula. Safe for use with all metals, including aluminum and is compatible with any color antifreeze. Advanced distilled ethylene glycol formulation reduces carbon footprint.

Liquid Moon Conventional Green Antifreeze is blended with proprietary additives designed to safely meet the performance specifications of (but not limited to):

- ASTM D-3306 •Ford ESE-M97B44-D •Chrysler MS 7170 •SAE J1034 •CEMS B-1
- GM 1825M & 1899M •TMC RP 302A •John Deere 8650 •JIS K 2234 •GSA A-A-870A

50/50 - 6/1 GAL - 172304C061 CONCENTRATE - 6/1 GAL - 1723045061
