

ENEOS

ENEOS FULLY SYNTHETIC MOTOR OILS

ENEOS 0W-20

ENEOS 0W-20 Fully Synthetic Motor Oil is 100% fully synthetic motor oil blended from high-performance hydro-refined base oils and an optimized additive blend to provide better fuel economy, and increased emission system durability.

It provides excellent fuel economy and environmental protection, is suitable for hybrids & LEVs, Meets API SN/RC and ILSAC GF-5 standards, and is dexos1™ approved, providing broad compatibility with domestic and import vehicles.

DEXOS GEN2 Approved

Low Viscosity (0W-20)

ENEOS 0W-20 High Performance Fully Synthetic Motor Oil is blended from high-performance hydrorefined base oils and an optimized additive blend, providing much better heat and oxidation stability than regular motor oils blended from solvent-refined base oils. Thanks to its innovative formulation, ENEOS 0W-20 achieves a low viscosity of 0W-20, enabling excellent fuel economy and environmental protection.

Superb Fuel Economy to Protect the Environment

In addition to its high-performance hydrorefined base oils and various additives, ENEOS 0W-20 is also blended with organic molybdenum friction reducers. As a result, the oil minimizes friction and enables superb fuel economy.

Meets Latest API Standards

The high-performance ENEOS 0W-20 has been certified as meeting the latest API SN Plus standard established by the American Petroleum Institute.
