Inhalation Remove to fresh air. If breathing is difficult, have a trained individual administer oxygen.

SECTION 4: First aid measures			
Eyes	Use eye wash to remove a chemical from the eye. Flush the affected eye for at least fifteen minutes.		
	Tilt the head to prevent chemical from transferring to the uncontaminated eye. Seek medical		
	attention if irritation persists.		
Skin Contact	Wash with soap and water. Get medical attention if irritation develops or persists. Seek medical		
	advice if symptoms persist.

	contents is necessary, use method least likely to cause aspiration.		

SECTION 5: Firefighting measures			
5.1. Extinguishing media			
Suitable and Unsuitable	Use alcohol resistant foam, carbon dioxide, or dry chemical when fighting fires. Water or foam may		
Extinguishing Media:	cause frothing if liquid is burning but it still may be a useful extinguishing agent if carefully applied		
	to the surface of the fire. Do not direct a stream of water into the hot burning liquid.		
5.2. Special hazards arising from the substance or mixture			
Fire and/or Explosion	Material may be ignited only if preheated to temperatures above the high flash point, for example in
