Standard Terms: 1% 10, Net 30 Days from Invoice Date, with approved credit. Said discount is allowed on discountable products only. Discount is not allowed on freight, pallets, taxes, etc...

The postmark of the U. S. Post Office will determine payment date. If the payment is postmarked within the discount period, the appropriate discount will be allowed. If the payment is postmarked after the discount period, no discount will be allowed. Any invoice not paid within thirty days is subject to late payment charges. Late charges, related information and policies are described on the back of each invoice.

SUPPLYPRO's shipping policy is SHIPPER LOAD, CONSIGNEE UNLOAD. SUPPLYPRO will not be responsible for any charge that the carrier may impose if the driver assists in any manner in unloading the trailer.

All prices quoted are in U.S. Dollars, are FOB origin, are based on full truckload orders delivered to one location within the Continental United States, are exclusive of any and all taxes and/or fees and are subject to change.

**Package Products:**

Each product must be ordered in full pallet increments.

Product ordered in less than full pallet increments of the same product will incur an up-charge of 72 cents (\$0.72) per gallon (Grease 9 cents {\$0.09} a pound) added to the cost.

**Minimum Order:**

1,500 Gallons (approximately 6 pallets of case goods or 7 pallets of buckets and/or drums).

Any order under 1,500 gallons will incur an up-charge of \$0.56 per gallon.

**Full Truckload: 43,000 - 45000 lbs.**

Product will be invoiced at the FOB Atlanta price and freight @ \$0.24 per gal (\$0.03/lb) will be added as a separate line item on each invoice.

LTL shipment: 23,000 - 42,999 lbs

Product will be invoiced at the FOB Atlanta price and freight @ \$0.56 per gal (\$0.07/lb) will be added as a separate line item on each invoice.

LTL shipment: 12,000 - 22,999 lbs

Product will be invoiced at the FOB Atlanta price and freight @ \$0.88 per gal (\$0.11/lb) will be added as a separate line item on each invoice.

Grease will be converted to gallons at the rate of 8 pounds per gallon to calculate the freight.

**Demurrage:**

All demurrage charges are the responsibility of the customer. Under conditions brought about by the new Federal rules governing drivers, we are allowed no more than one (1) hour to unload box trucks. Trucking companies will bill us the appropriate demurrage fee and we will in turn, bill the customer whatever amount we are billed for demurrage. As a rule of thumb and just as a rule of thumb, trucking companies bill demurrage at approximately \$1.00 per minute.
